

# AN OPEN LETTER TO THE CITIZENS OF THE SECOND CONGRESSIONAL DISTRICT OF MISSOURI

Fellow Citizen and Neighbor,

We can do better, and we deserve better. When did receiving the honor to represent a district in our democracy become a blank check to disregard the half of our community? Perhaps it is a good time to reassess how absolutism and zealotry continue to infect our policies.

If we find ourselves voting against someone instead of for someone, then the government has been given too much power.

If solving our problems is dependent on government then we are giving our representatives too much power over us.

If our government can stop our lives for an indeterminate amount of time, we are giving it too much power.

The power of this country rests in the people and the government is there to serve.

Our country was not designed to be ruled by a simple majority. The electoral college, filibuster, vetoes, and overriding vetoes were all implemented to ensure one party could not politically smother another. It is meant to be for all of us, not just one particular group. The current establishment parties are unable to work together. Congress has been devoid of a positive approval rating since 2003 (<https://news.gallup.com/poll/1600/congress-public.aspx>).

The encroaching progressive ideological agenda cannot be prevented by those who enable the government over its citizens. Establishment party candidates are not equipped to direct this country, especially by a group of politicians that have blighted future generations by weaponizing legislation to pick winners and losers, by creating a deficit that will impoverish the working class with inflation, and by making the priorities of a slim majority more important than the health of our country as whole.

There is no longer validity in claiming bipartisanship from an established party. Our votes often go to whomever will oppress us the least. Moderates are going the way of the dinosaur and the extremists are taking over. Should we trust parties that exclude individuals with different views, until it comes time for votes?

As the only candidate without a negative ad against them, I hope that you will join me as we stand against the impotence of lackluster governance. As your candidate, I will:

- Always fight to lower taxes
- Provide solutions for immigration
- Replace social security without removing those who paid into the system
- Remove the bureaucracy to allow your ingenuity to succeed
- Cease the enabling of destitution and allow you to thrive and keep what you earn

If you made it to this point, I hope that I convinced you to vote against this

Individual Rights and Responsibilities

Government Oppression
